## Our Premier Partners

uffizio

fleettrack®

locoNav

We provide everything you need  
for smooth fleet operations:

## Essential Hardware

GPS trackers, fuel sensors, dashcams, asset trackers, E-locks,  
and IoT devices for all types of vehicles.

## User Friendly Applications

Manage and track your vehicles effortlessly  
with our straightforward software.

## Dependable 13-Digit SIM

Enjoy fast, reliable connectivity for all your devices.

Whether you have cars or EVs, we're ready to help you with all your fleet needs.  
Let's work together to make your fleet smarter and safer!

## PT06- GPS TRACKER

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### 2G

### FEATURES

- Real Time Tracking
- User define Geo-fence
- Trace Playback
- Overspeed Alarm
- Remotely Cutoff Petrol
- Power disconnect alarm
- Low battery alarm
- Built-in battery
- Small Size

PT06 is a 4-wire device with integrated GSM technology, GPS technology, built-in antennae and sensors. It has functions like ACC Detection, Vibration and Disassemble Alarm and is enabled to remotely cut off fuel/electricity from the vehicle.

## EV02- GPS TRACKER

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### FEATURES

- Real Time Tracking
- User define Geo-fence
- Trace Playback
- Overspeed Alarm
- Remotely Cutoff Petrol
- Power disconnect alarm
- Low battery alarm
- Built-in battery
- Small Size

2G

EV02 is a 4-wire device with integrated GSM technology, GPS technology, built-in antennae and sensors. It has functions like ACC Detection, Vibration and Disassemble Alarm and is enabled to remotely cut off fuel/electricity from the vehicle.

## G19H- GPS TRACKER

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### Features

- Real Time Tracking
- User define Geo-fence
- Trace Playback
- Overspeed Alarm
- Remotely Cutoff Petrol
- Power disconnect alarm
- Low battery alarm
- Built-in battery
- Small Size
- IP 67 Waterproof & Dustproof

The GPS tracker PT19H is a compact, waterproof device (IP67) with built-in GSM and GPS technology. It offers real-time tracking, over-speed alerts, and works reliably even in rainy or wading conditions, making it perfect for all-weather vehicle use.

## PT18 – GPS TRACKER

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### FEATURES

- Remotely Stop Engine
- Driver Behaviour
- Intelligent Disassemble Alarm
- Light sensor
- Disassemble removal device
- Rapid acceleration
- Deceleration
- Sharp Turn/Collision Alarm
- Built in G sensor- 3 axis
- Hidden LED, IP65,
- Mini size
- Life: upto 5 years
- Flash Memory-4MB

The GPS tracker PT18 combines GSM and GPS tech with built-in sensors, offering ACC detection, vibration and disassemble alarms, and remote fuel/electric cut-off. Ideal for fleet management, it tracks driver behavior with alerts for rapid acceleration, harsh braking, sharp turns, and collisions.

## PS07 GPS TRACKER

with Temperature Sensor

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### FEATURES

- Remotely cut-off petrol
- Inbuilt Flash memory-4 MB
- Digital Temperature sensor
- Disassemble Alarm
- Temperature monitoring
- Voltage support 9-90v
- Low power cutoff alarm
- IP65, Water Resistant
- Dust proof

PS07 is a smart GPS tracking device that integrated with GSM technology and GPS technology. It is enabled with a built-in antenna and a temperature that makes it a boon for the logistics transportation of temperature sensitive products.

## PS03 GPS TRACKER

with AC and Door Detection

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### FEATURES

- Real-time Tracking
- History Playback
- Remotely Cut-off Petrol
- Low Battery Alarm
- AC+Door Detection
- ACC Detection
- Support 9-90V

2G

PS03 is a advanced multi-functional GPS tracking device. Integrated GSM technology, GPS technology, built-in antenna and sensors. The device can also be integrated with door and AC detection.

## G17S GPS TRACKER

with SOS and Voice Monitoring

Car, Bike, Truck and Bus Security, Fleet Management and Tracking

### FEATURES

- Real Time Tracking
- SOS button
- Voltage Range: 9-90V
- Remotely Cutoff Petrol
- Cut wire Alarm
- Vibration Alarm
- Built-in battery 90 Mah
- Voice Monitoring mike
- Flash Memory-4MB

2G

G17S is a functional GPS tracking device. Integrated GSM technology, GPS technology, built-in antenna and sensors and can also be connected with SOS button and Microphone.

## PT20 MAGNETIC GPS TRACKER

Asset Tracking

# 2G

### FEATURES

- Real Time Tracking
- Fast Positioning
- 6000mAh long battery life
- Vibration Alarm
- Geo-Fence Alarm
- Light Sensor
- Disassemble Alarm

Asset GPS tracker PT20 is self-sufficient battery powered device with a strong magnet that can be easily moved from vehicle to vehicle, placed in a package, asset or container.
