

# ALC-308

## Parameter specifications

Power: onboard power supply, wide voltage DC5-24V

Size: 140\*60\*30mm

ensor: Fuel cell sensors

Calibration period: 2000 times or one year

Blow time: 5S

Blowing flow rate: 10 L/min

Measuring range: 0~4.00%

Deviation: 0.50% at  $\pm 0.05\%$

Alarm points and units can be set

Display: 128\*64

Weight: 250g

Communication: RS232/RS485

Extended application: The device can interface with the on-board MDVR through RS232 interface, and can send test results, photos, and videos to the cloud management platform for data management through the 4G network of the MDVR host

connect with dashcam or MDVR
